THE NIGHT WINDOW

Producer – Short-film development pitch

Hook: Assemble a small production around a consequential, filmable negotiation.

Logline: Before midnight, a repair-kiosk owner must choose between her lease deposit and correcting a battery record that could save a courier cooperative from paying for her mistake.

The script has two speaking roles, no driving action and no required extras. Choose a controlled set or practical kiosk after checking night permissions and sound. Safe inert batteries, duplicate paperwork and preset inserts are essential. An independent comprehension read should precede scheduling.

Proposed next step: Review scope and obtain location/crew/post quotes. No production partners are attached.

Status and scope: Original short, revised host-agent demonstration draft. No cast, finance, partners or distribution attached. Single-agent self-review; no independent endorsement. Local draft only, unsent. This small demo does not establish feature-quality guarantees.
